SFB/ZOQ Seminar

Summer term 2017

- ❖ 5 April – Oliver Morsch, INO-CNR and Dipartimento di Fisica, Pisa, «Exploring absorbing-state phase transitions in an open driven many-body quantum system»
- ❖ 12 April – Dirk Manske, Max Planck Institute for Solid State Research Quantum Many-Body Theory, Stuttgart, “The echo of superconductivity: Higgs Spectroscopy of Superconductors in non-equilibrium“
- ❖ 26 April – Jörg Schmiedmayer, TU Wien, „Probing many-body systems by correlations“
- ❖ 3 Mai – Bernd Lohmann, Westfälische Wilhelms-Universität Münster
- ❖ 10 Mai – Robin Kaiser, CNRS / Université de Nice Sophia-Antipolis
- ❖ 24 Mai – Jean-Philippe Brantut, Ecole Polytechnique Fédérale de Lausanne, „Quantum coherent transport of cold Fermions in mesoscopic structures“
- ❖ 14 Juni – Jan Hendrik Pöld, DESY Hamburg, „Status of ALPS II and concepts beyond“ – Time change: 11:15 am
- ❖ 28 Juni – Jook Walraven, University of Amsterdam
- ❖ 12 Juli – Xuzong Chen, Peking University
