

**Seminar in the Integrated Research Training Group (IRTG)
of the SFB 676 “Particles, Strings and the Early Universe”**

Winter Term 15/16

Presentation of Scientific Results

J. Louis

Course Description:

The seminar aims at Master-, PhD-students and Postdocs and discusses techniques and rules for the presentation of scientific results. The first three sessions are lectures on the topics:

- “How to write a scientific physics paper”
- “How to give a scientific physics talk”
- “Vocal and physical techniques during a talk”

In the second part of the seminar the participants have the opportunity to give a 25-minute conference-type-talk with a subsequent discussion about the presentation. The third part of the seminar opens with two lectures on the topics

- “How to do a job interview”
- “Vocal and physical techniques during a job interview”

and then simulates job interviews with the participants.

The seminar is conducted in cooperation with a trainer for presentation skills.

Date and Place:

Mo, 14:30, SR 7a, Campus Bahrenfeld

Starting on:

12 Oct 2015
